Tutti i nostri prodotti sono interamente realizzati e decorati a mano nei nostri laboratori in Italia, e sono il frutto di molte ore di paziente lavoro artigianale, oggi come un tempo. L'autenticità delle nostre opere viene garantita dalla nostra firma impressa a fuoco su ogni pezzo. Le nostre creazioni si contraddistinguono per l'accuratezza dei particolari, la raffinatezza e l'unicità dei decori, e rappresentano da sempre un prodotto di prestigio, per una clientela esclusiva, il cui valore aumenterà nel tempo. Scopri come mantenere inalterata la bellezza dei nostri prodotti nel tempo:

*Our products are completely hand made - hand painted in our factory in Italy, and represent the result of a long and patient work, typical of the old tradition of Deruta. Every piece we produce come with our signature to guarantee the originality.*

*Our collections are very unique, different from the others for the elegant shapes and the accurate design of the decoration and are considered always a luxury "must have", for those who looks for exclusivity and a value item. Discover how to maintain the beauty of our products over time:*

#### STOVIGLIERIA DA TAVOLA

Tutti i prodotti per la tavola sono ideati per uso alimentare; vengono usati smalti e colori completamente privi di piombo ed altri pigmenti metallici. I prodotti ad uso alimentare sono testati in laboratori per ottenere le certificazioni di assenza di piombo.

**Lavaggio e Pulizia** - Consigliamo sempre, quando possibile, un lavaggio a mano per gli oggetti ad uso alimentare. Se usati in lavastoviglie, usare il programma che non superi i 50°, facendo molta attenzione distanziare bene i prodotti gli uni dagli altri, per evitare il contatto durante il lavaggio ad alta pressione.

**Forno micro onde** - I prodotti da tavola ed uso alimentare non possono essere usati in forno a fiamma viva.

Possono essere usati in Micro onde per un moderato riscaldamento. Lasciare raffreddare gli oggetti prima di toglierli dal micro onde od usare un panno.

**Manutenzione** - A seguito di uso prolungato, possono comparire nello smalto delle piccole linee nello smalto, questo deve essere considerato fisiologico del prodotto e non ne altera la qualità o funzionalità.

Prestare molta attenzione allo shock termico: non passare rapidamente dal riscaldamento al raffreddamento dell'oggetto, altrimenti si corre il rischio di crack.

#### DINNERWARE AND TABLE TOP

All Dinnerware and Tabletop Products are Guaranteed to be 100% Food Safe. Our products are completely lead free and comply with FDA standards and U.S.A. import regulations for lead and cadmium.

**Dishwasher Safe** - We suggest to wash by hand the dinnerware ceramic products when possible. L'Antica Deruta dinnerware ceramic products are made of the refined natural clay glazed and double fired high temperature. If washed in dishwasher, use the lower program, with a temperature not more than 50°. We recommended to space the items apart to avoid touching each other during the high pressure dish-washing. Do not overload the dishwasher - Use a non-citrus, non-abrasive detergent on the air dry cycle. Hand washing is recommended for oversized items.

**Microwave and Conventional Oven Use** - Our dinnerware products are not made for cookware use and conventional oven use. They can be used in Microwave oven for moderate reheating only. Temperature of clay may vary after micro wave use - allow them to cool down before remove from microwave or use an oven mitt.

**Product Care** - With repeated use, earthenware products have a tendency to "craze" (forming minuscule lines in the glazing). The crazing is the nature of earthenware, and has no significant effect on the ceramics Thermal Shock and cracking - Avoid sudden temperature changes - A thermal shock is the fracturing effect that occurs when ceramic objects are rapidly either heated or cooled and it may crack any earthenware plate.

#### CERAMICHE D'ARREDO

Tutte le **CERAMICHE SMALTATE** ( ad esclusione di quelle della collezione LUXURY ORO e di quelle ANTICATE per le quali valgono le specifiche a seguire) possono essere pulite semplicemente con acqua o con acqua e sapone neutro ; non devono mai essere pulite con solventi a base di sostanze acide o abrasive

-Ceramiche con decori **LUXURY ORO** : sono decorate in ORO ZECCHINO e/o altri speciali colori metallici (argento, lustro) fissati in terza cottura .Per pulire questi oggetti utilizzare esclusivamente un panno asciutto o leggermente inumidito con acqua pura ; non utilizzare detergenti spray in commercio di nessuna tipologia

-Ceramiche **ANTICATE** ( con PATINA DI INVECCHIATURA) : queste decorazioni vengono realizzate applicando una finitura di invecchiamento a freddo, stesa a pennello sull'oggetto finito; questi oggetti devono essere puliti usando SOLAMENTE un panno asciutto; l'utilizzo di acqua o detergenti spray su tali oggetti può causare la perdita della patina applicata .Gli oggetti patinati / invecchiati non sono adatti ad un uso alimentare .

#### DECORATIVE CERAMIC ITEMS

-All **DECORATIVE CERAMICS** items are fully glazed, and they can be washed with SIMPLY water or water and natural soap , never use acid or corrosive products

-Ceramic items of collections **"LUXURY- GOLD"** - decorated in GOLD finish : these are realized with special metallic colors (pure gold, silver, luster) : for a proper cleaning use only a clean dry cloth , or just a little bit wet; never use soap spray to clean them

-Ceramic items with **"ANTIQUE FINISHING"** : these are special collections, with antique vintage look, obtained after a patina finish process ; these items must be cleaned only with a dry cloth; attention: if cleaned with water, the patina will be removed .These ceramics are not food safe , and are only for decorative use.

#### TAVOLI "TRAVERTINO E COTTO"

I piani della linea **COTTO&PIETRA** sono caratterizzati da un esclusivo Vintage Look, che li rende unici nel genere; questo particolare effetto lo si ottiene a seguito di diversi processi manuali interni ai nostri laboratori.

Questi piani tavolo realizzati in travertino (lastra sottostante), e sullo stesso viene fissato un mosaico di piastrelle di terracotta lasciate naturali e/o decorate, a formare innumerevoli motivi decorativi. Questa particolare tipologia di piani tavolo è idonea per essere utilizzata sia all'interno che all'esterno: per un uso esterno prolungato negli anni, al fine di garantirne l'integrità dei materiali e dei colori originali sia della terracotta che del travertino, è obbligatorio effettuare il trattamento consigliato riportato qui di seguito.

Tutti i nostri piani tavolo sono trattati con cere naturali e olii, applicati con speciali procedimenti testati, al fine di renderli impermeabili e proteggerne la superficie, rendendoli così idonei a non assorbire nessun tipo di sostanza.

EVITARE di far venire a contatto con la superficie **NON MAIOLICATA DEL PIANO** ( cioè le parti in cotto naturale e/o in travertino), con sostanze corrosive, acide o stoviglie calde: se ciò accadesse, si potrebbero verificare delle macchie sulla superficie dello stesso; tali macchie sono eliminabili, ma solo con particolari processi che solo noi in laboratorio possiamo effettuare.

Al fine di preservare la bellezza dei piani nel tempo e conservare le caratteristiche tecniche di resistenza e quant'altro sopra descritto, si consiglia di effettuare periodicamente (almeno 1 volta all'anno, prima della stagione invernale) un semplice trattamento di manutenzione (lavaggio e ripristino cere) ; con ogni piano tavolo consegniamo un KIT di manutenzione, contenete un barattolo di cera e un foglietto illustrativo.

In inverno, se non utilizzato si consiglia di coprire la superficie dello stesso con un panno semplice, impermeabile; se coperto, può essere lasciato all'esterno, anche sotto l'azione diretta degli agenti atmosferici.

#### "TRAVERTINE & COTTO" TABLE TOPS

These tables have a very exclusive and unique vintage look, obtained after many special, handmade process on all natural materials we use to realize them.

These tops are made of travertine (slab) and a mosaic of hand made terracotta tiles, natural or decorated in many different design and fixed on it.

This particular type of table top is suitable for use both indoors and outdoors: for prolonged outdoor use over the years, in order to guarantee the integrity of the original materials and colors, of both terracotta and travertine, it is mandatory to follow the treatment below.

All our table tops are treated with natural waxes and oils, applied with special tested procedures, in order to make them waterproof and protect the surface, and prevent absorbing any type of substance.

AVOID contact with the surface of the table top with corrosive, acidic or hot dishes: if this happened on the non-majolica part (natural terracotta and / or travertine part), stains could occur on the surface; these stains can be eliminated but only with particular processes that we can carry out in the laboratory.

In order to preserve the beauty of the tops over time and maintain the technical characteristics of resistance and anything else described above, we advise to periodically (at least once a year, before the winter season) a simple maintenance treatment (washing and wax recovery); with each table top, we deliver a maintenance KIT, containing wax and an instruction sheet In winter, if not used, it is recommended to cover the surface of the same with a simple, waterproof cloth, and then you can leave it outside under the rain or snow with no problem.

#### TAVOLI IN PIETRA LAVICA

La superficie dei piani realizzati in pietra lavica ceramica risulta essere sempre lucida con colori brillanti, e con una caratteristica "ragnatela" nello smalto di fondo, che in gergo tecnico chiamiamo "craque", ineliminabile e casuale da un tavolo all'altro.

La pietra lavica è di origine vulcanica e si estrae in blocchi dalle cave Siciliane; viene poi tagliata in lastre in base alle dimensioni richieste. Prima di iniziare la decorazione la lastra viene smaltata al fine di rendere la superficie omogenea; una volta decorati, i tavoli vengono cotti in forni speciali che arrivano a circa 1000°C per circa 18 / 24 ore. Questi piani tavolo non hanno bisogno di nessuna manutenzione, hanno un'altissima resistenza all'urto e al graffio, sono impermeabili e possono essere puliti con acqua e sapone; sopportano senza problemi alte o basse temperature o qualsiasi agente atmosferico

#### "LAVIC STONE" TABLE TOPS

The lavic stone we use to realize the tables comes from Vulcano mountain and is extracted in blocks from the Sicilian quarries, cut into slabs according to the required dimensions. Before starting the decoration, the slab is glazed in order to make the surface homogeneous; once decorated, the tables are cooked in special ovens that reach around 1000 ° C for around 18/24 hours.; these table tops do not need any maintenance, have a very high impact and scratch resistance, are waterproof and can be cleaned with soap and water; they resist to any weather condition, from very hot to very cold.
